Shankarlal Khandelwal Arts, Science and Commerce College, Akola MS Report

'Cyber Security Awareness' with 'Earn and Learn' Academic Year: 2022-23

1. Title

Cyber Security Awareness with Earn and Learn

2. Objectives

- a. To impart the knowledge of Cyber Crime and Cyber Security
- b. To Aware the students of the College about participation in the scheme.
- c. To select the volunteers (students) of the College for conducting Cyber Security Awareness program
- d. To organize workshop and train the selected students.
- e. To impart public speaking skills, presentation skills, confidence building, team building and leadership
- f. To send the trained volunteers in the various Schools and Colleges of Akola district for presentations and conducting the workshops.
- g. To aware the students and their parents (through students) about Cyber Crime and Cyber Security.
- h. To earn / receive the stipend / honorarium for each presentation from Quick Heal Foundation Pune.

3. The Context

Recently the use of internet through Laptop, Computers and Mobiles in the field of banking and other all-important sectors has been increased abruptly. It is very easy for common people to access the internet and any other sites from anywhere in the world. Along with the use of internet in banking online crime i.e. cyber-crime has been increased many times. This has initiated to Cyber security of our bank accounts and important data. Its big challenge to protect our banking passwords from being hacked. There is a need to aware the students and parents about different types of cyber-crimes and Cyber Security.

4. The Practice

The Cyber-crime is a Computer and internet oriented crime. The Crime concerned with privacy, confidential information, passwords and targeted against girls to harm physically and mentally. Cyber-crime may threaten a person or a nation's security and financial health.

As we know, in this digital age, Information and Communication Technology (ICT) in education can lead to an improved student learning and better teaching methods. It has a significant and positive impact on student's achievements. This has increased the use of Mobile, Laptop, Computer and Internet in almost all the fields. Even a common people can also access the required information from anywhere in the world. This has created new criminal opportunities and online crime, cyber-attacks increases in multiples.

In order to increase the awareness amongst the students, their parents and Teachers about different types of cyber-crimes and security, **Department of Physics and IQAC** jointly organized Cyber Security Awareness Program with Earn and Learn scheme in collaboration with Quick Heal Foundation Pune and Maharashtra Cyber Mumbai. Initially Memorandum of Understanding (MoU) has been signed on 25th April 2022 (and implemented with effect from 1st May 2022) by Hon. Principal of the College and Executive CSR of Quick Heal foundation Pune. After creating awareness about the scheme amongst all the students of the College in the month of June, July 2022 initially 32 interested students were selected. Cyber shield online examination was conducted on 17th August 2022. Training on communication skills and public speaking was organized on 24th August 2022 for these students. The resource person was Ms. D. D. Mapari, Department of English of the College. Out of 32 students, 16 student volunteers have been selected through their live presentations in the presence of Ms. Sugandha Dani, Executive CSR, Quick Heal foundation Pune.

Workshop cum training on Cyber Shiksha for Cyber Suraksha was organized in three sessions in the college on 18th Aug. 2022 for selected volunteers. Ms. Sugandha Dani, Executive CSR, Quick Heal Foundation Pune conducted the workshop and delivered the lectures in two sessions on Cyber Crime and awareness. APC Mr. Prashant Kedare, Mr. Om Deshmukh, Cyber Police station, Akola, conducted one session and delivered the lectures on practical examples of crime and precautions to be taken. Cyber law and procedure to be followed after unexpected involvement in the crime was discussed in the workshop.

Hon. Dr. J. M. Saboo, Principal, Shankarlal Khandelwal College, Akola and Ms. Sugandha Dani grace the function. Teaching, Non-teaching Staff members and Students were participated in the inaugural ceremony.

After training through the workshop, 16 volunteers in 8 groups visited different schools of Akola district and delivered 159 presentations on Cyber Crime and Cyber Security. This Cyber Security awareness program conducted from 4thOct. 2022 to 8thDec. 2022 in different schools and sensitized 38101 (31,636 Students + 6465 People). Each Volunteer has got honorarium Rs. 500/- per presentation. Quick Heal Foundation paid Rs. 2,22,600/- along with expenditure for this Earn and Learn management to the Coordinator and distributed amongst the volunteers. Volunteers were happy about their first earning in their student life. It has been used by the volunteers for completing the online courses. Some of the students used a part of earning for needy people in their society.

5. Evidence of Success

Volunteers visited the schools and delivered the presentations in front of the Teachers and students. Really this is the first and exciting experience of the volunteers to visit the school and delivered the lecture as a guest. Organizers welcome the volunteers and shows proper hospitality. As a Coordinator, I observed and analyzed from the feedback form of the students and teachers that, our volunteers solve the questions asked by the students and imparted the knowledge of cyber security. Video feedback of Principal, Teacher, volunteers, News published in the newspapers and Photographs of the presentations shows that the objectives of the scheme has been fulfilled and the College is succeeded in conducting the cyber security awareness program in collaboration with Quick Heal Foundation, Pune and Maharashtra Cyber. All the volunteers received the honorarium for their presentations.

6. Problems Encountered and Resources required

The problems like selection of schools, permission of the Principal has been solved in advance and visit plan prepared before to start the presentations. The problems of travelling/ transporting in different schools at different places have been solved with the help of parents of volunteers and proper planning before to start the presentation program. Coordinator and Principal of the college were always in touch with the volunteers and

their parents through mobile calls and used to enquire about their problems during school visits and solved them. On request, the Principal and the teachers of the schools have co-operated the volunteers for PPT presentations and made all the required arrangements of mike and sound system. Respected Head Master/Principal, concerned Teachers were personally present for the program and look after the discipline during the presentation. Quick Heal Foundation, Maharashtra Cyber, School administration, Hon. Management, Hon. Principal, IQAC Coordinator, SPOC, Volunteers and their Parents plays significant role for grand success of the Cyber Security Campaign.

7. Notes

Dept. of Physics & IQAC of the Shankarlal Khandelwal College, jointly organized this activity since academic year 2018-19. This activity was followed by Online Course, Quiz, Faculty Workshop and training of the volunteers. Students of all the faculties completed the online course in the college from which 46 top volunteers were selected for this activity. These 46 Volunteers has given 305 presentations in different schools and sensitized 61,449 students about cyber security. Quick Heal Foundation, Pune paid Rs.3,66,000/- in that years for this Earn and Learn Scheme with expenditure. It was really memorable moment for volunteers. Volunteers earned money, knowledge, experience, courage, leadership and happiness too.

As a coordinator I would like to mention here is that, this cyber security awareness program is really should be implemented frequently and for students of other schools also. As we know, Students are now always in touch with the screen of internet. We can't stop them for using the mobiles and internet. Now a day, the students and parents are surprisingly using social media and different free software's. This increases the possibility to be a victim of the criminal activity. So there is need to aware the students about different types of crimes and security. After going through the complete activity which we have conducted from last four years, we experienced that this 'Cyber Security Awareness' with 'Earn and Learn' Scheme conducted in collaboration with Quick Heal Foundation Pune and Maharashtra Cyber Mumbai, is one of the best practices in the College.

Subject: Seeking permission for conducting "Cyber Security Awareness" presentation

Respected Sir / Madam

"Cyber Security Awareness" program is being conducted by Maharashtra Cyber & Quick Heal Foundation across Maharashtra along with student volunteers. The objective of the program is to identify, prevent and report cyber-crime, follow netiquettes and safeguard students in virtual world.

As everyone is now using internet for varied purposes from sending casual messages to purchasing online, from studying online to doing business online, this generation must be aware of possible threats in cyber world and how to combat them. Having sensed need of an hour, Maharashtra cyber & Quick Heal Foundation has taken this initiative of "Cyber Security Awareness" for students.

Request you to grant permission to conduct "Cyber Security Awareness" presentation in your institution. Duration of presentation is 45 minutes. This program will make students understand how to identify online threats, how to prevent them and how to report in case of distress.

Separate presentations are conducted for students of Std. $5^{th} - 7^{th}$, $8^{th} - 10^{th}$ 11^{th} - 12^{th} and senior college students.

Looking forward to a favorable response from you.

To, Shri Ajayji Shirke, Manager, CSR Quick Heal Foundation, Pune.

Respected Sir,

We are extremely thankful for your interesting and useful project 'Cyber Shiksha for Cyber Suraksha' on 'Cyber Security Awareness' that has been conducted in our College as per the MoU with Department of Physics. Ms. Sugandha Dani has delivered a nice and informative talks in two sessions in the training cum workshop for faculty and volunteers of 'Earn and Learn' Scheme. She has observed the presentations of volunteers and selected 16 cyber warriors. Under this scheme, cyber warriors delivered the presentations at various schools and social places in Akola district. It has a deep impact on the students and was highly appreciated. It will last evermore and prove encouraging to them. We are grateful to you for all your cooperation and guidance.

We strongly believe that your best wishes and support will be with us in the future too.

Appreciation Letter

On behalf of Quick Heal Foundation, Pune, I would like to appreciate Prof. Dr. Haridas Janardhan Kharat of Shankarlal Khandelwal Arts, Science and Commerce College, Akola for brilliantly fulfilling his/her role as a Cyber Suraksha Champion during the "Cyber Shiksha for Cyber Suraksha" program, as a part of our CSR initiative during 04-10-2022 to 08-12-2022

This program was conducted for schools and college students to make them aware about the increasing danger of cyber threats, and also educate them on how to minimize their digital risks.

During this activity, the responsibilities of the Cyber Suraksha Champion were:

- To work as a catalyst between Quick Heal Foundation and the Cyber Warriors and to maintain records related to the presentations made by students.
- Encourage Cyber Warriors to conduct impactful activities and sensitize the masses.
- To help Cyber Warriors to conduct the mass activity.

We greatly appreciate Prof. Dr. Haridas Janardhan Kharat for having handled all these responsibilities successfully.

We also hope that we will continue to receive such cooperation in future as well.

With our best compliments, From Quick Heal Foundation

To Whom So Ever It May Concern

Reference: MOU signed between Quick Heal Foundation and Shankarlal Khandelwal Arts, Science and Commerce College, Akola

Quick Heal Foundation extends a hearty 'congratulations' on the successful completion of the mutually agreed task towards the Cyber Awareness Literacy Cell (CALC) established at Shankarlal Khandelwal Arts, Science and Commerce College, Akola to spread cyber security awareness among society under our "Cyber Shiksha for Cyber Suraksha" initiative.

To accomplish this task 16 Cyber Warriors selected to work under the guidance of Dr. Haridas Janardhan Kharat have completed their tasks within the stipulated duration.

It is now our pleasure to certify that, under this assignment, the Cyber Warriors have visited 129 schools and colleges, sensitizing 31,667 students through 159 presentation sessions, for which Quick Heal Foundation paid ₹222,600.00/- as assignment fees to Shankarlal Khandelwal Arts, Science and Commerce College, Akola volunteers & mentors.

In view of the efforts carried out by Shankarlal Khandelwal Arts, Science and Commerce College, Akola we now declare that the assignment is officially completed.

Thanking You,

With our best compliments, From Quick Heal Foundation
