Best Practices of the College

Best Practice No1: Theme Based Activities

Keeping students at centre point, every year a theme is so decided that it allows to convey the objectives, goals and mission of the institution among the students. Throughout the year, all the events and activities are planned, arranged and held keeping this overarching idea in mind. The theme gives a basic structure to all the events of the college. It is a paving way to facilitate the core values, objectives and goals of the institution.

Last year during the session 201819, the theme was Know Thyself, because knowing yourself is the first step towards development. Last year also, Prerna Sohala on 1st August 2018 greatly emphasized the theme *Know Thyself*. A theme based workshop was organised on that day. Thereafter theme song was played. Every year an inspirational and motivational theme based song is prepared and it is played during every small and big event or activity of that year to inspire and motivate students.

Colleges annual gathering, different small and big events, activities, colleges annual magazine and the articles published in it were all selected and organized in such a way that they clearly state and emphasized the theme *Know Thyself* to inspire and reinforce the message among the students.
